

MÖDERE™ FACT SHEETS

MULTI-SURFACE CLEANER

PRODUCT DESCRIPTION:

Modere Multi-Surface Cleaner is formulated with plant-derived surfactants and biodegradable ingredients that effectively remove grease, dirt and grime from just about any household surface. Versatile enough for every room of your home, this all-purpose formula uses baking soda and surfactants to freshen upholstery and clean hard surfaces to a streak-free shine.

PRODUCT BENEFITS:

- Powerful degreasing agents tackle the toughest messes without using phosphates or chlorine bleach
- Effective on upholstery and fabrics as well as hard surfaces
- Cleans with no streaky residue
- Helps eliminate odors without harsh chemicals like ammonia or bleach
- Fresh citrus scent
- Readily biodegradable and gray-water safe**

POSITIONING STATEMENT:

The next time life throws a mess your way, be prepared with Modere Multi-Surface Cleaner. From dust and dirt to dried spaghetti sauce, hard-water stains to hardened grease, this convenient spray provides powerful cleaning on hard surfaces and upholstery throughout your home. We've left out the harsh chemicals so you can feel confident about using it in the kitchen, bathroom, bedroom and more.

Featuring a fresh citrus scent, the proprietary blend of cleansers has the power to eliminate messes, destroy odors and leave behind a streak-free shine, no matter how dirty the job. And since this all-purpose cleaner is free of phosphates, dyes, chlorine, triclosan, SLS/SLES and NPEs, it's better for your home and the environment too.

DIRECTIONS/USAGE:

Spray onto soiled area or surface to be cleaned. Allow product to penetrate greasy messes or tough, set-in stains for at least one minute before wiping with a clean, dry rag or paper towel. Repeat as necessary. To achieve a streak-free appearance on glass or polished surfaces, use with microfiber cloth instead of paper towels. If using on fabric to spot clean, spray directly on stains. Let soak for at least five minutes and blot or wash normally with Modere Powder or Detergent.

For upholstery, fabrics or painted surfaces, spot test on an inconspicuous area before use. Multi-Surface Cleaner will not harm most surfaces including acrylic, sealed fiberglass, and vinyl. Not recommended for unpainted wood, natural marble or brass.

HOUSEHOLD | CLEAN

KEY INGREDIENTS:

- Sodium bicarbonate
- Alcohols, C10-14, ethoxylated
- Sodium gluconate

INGREDIENT LIST:

Water, alcohols C10-14 ethoxylated*, alcohol*, sodium bicarbonate, sodium gluconate*, isopropyl alcohol, fragrance, benzisothiazolinone, methylisothiazolinone.

*Plant-derived ingredients

** Readily biodegradable according to OECD 301D protocol testing. Gray-water safe according to OECD 208 protocol.
