

MÖDERE® FAQs

MODERE AXIS™ PHYTOGOLDS

Health & Wellness | Targeted Health

What makes PhytoGold's more than a superfood?

- The ingredients in science-backed PhytoGold's are concentrated and formulated to be highly bioavailable and bioactive. This means all 7 ingredients can be absorbed and actively used by the body.

Can I mix PhytoGold's with other foods or beverages besides water?

- Yes, it can be mixed into smoothies or oatmeal, or try it with warm milk for a tasty golden latte.

Can I take PhytoGold's together with other products in the Modere Axis™ line?

- Yes, it can be taken at the same time or even mixed with other products in the Axis line.

What does PhytoGold's taste like?

- A warm blend of spices and vanilla. PhytoGold's is flavored with ginger root, cardamom seeds and vanilla bean extract.

Does PhytoGold's need to be refrigerated?

- No, it is formulated with dried fruits and vegetables and does not require refrigeration. Store in a cool, dry place.

Can my child take PhytoGold's?

- PhytoGold's is formulated for adults. Consult your doctor prior to use if you are nursing or pregnant.

Is PhytoGold's appropriate for vegetarians?

- Yes, it is vegetarian.

Is PhytoGold's gluten-free?

- Yes, it is gluten-free.

Is PhytoGold's dairy-free?

- Yes, it is dairy-free.

Is PhytoGold's non-GMO?

- Yes, it is non-GMO.

Is PhytoGold's sugar-free?

- PhytoGold's contains 0.5 g of sugar per serving. Fruit, fruit juice concentrate, and fruit extract ingredients add a trivial amount of sugar. This product is suitable for those on a keto diet.
