

MÖDERE® FACT SHEET

D3

Health & Wellness

Product Overview

Modere® D3 provides the same form of vitamin D your body produces in the sun, so you can experience all the benefits of a daily extra-strength dose in a delicious, convenient chewable.

Product Benefits

- Boosts immune function*
- Promotes cardiovascular health*
- Supports healthy teeth and bones*
- Enhances the absorption of calcium*

Product Details

Vitamin D is sometimes called the sunshine vitamin because your body can only produce it when your skin is exposed to sunlight. But seasonal climate changes, modern indoor living and reduced UV exposure mean you probably don't make enough of this vital nutrient. You can also absorb vitamin D from the food you eat, but nearly all dietary sources are insufficient, making supplementation the best solution for most people.

Modere D3 gives you 125 mcg (5,000 IU) of high potency vitamin D3 as cholecalciferol, the same form your body produces in the sun. Taking D3 daily is the perfect way to boost your immune system, support heart health and promote strong bones and teeth. Plus, D3 is non-GMO, sugar-free, gluten-free and tastes delicious.*

Directions/Usage

Chew 1-2 tablets once daily with food.

Key Ingredients

- Vitamin D3 (cholecalciferol)
